FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

TO: Director,
Allocations Branch

REQUEST FOR PREVIOUSLY FILED COUNTERPROPOSAL TO BE
BROUGHT OUT FOR COMMENTS AND FOR A PARTIAL
DISMISSAL OF THAT COUNTERPROPOSAL

On December 7, 1998, Good Government Radio (GGR) filed a counterproposal in the docket listed above. For some reason the counterproposal never appeared in the periodic data concerning FM radio stations proceedings. That filing had one pertinent fact that should be noted in the pending notice to place channel 270C2 at Olathe, Colorado. GGR proposed that channel 270A be used as a substitute for channel 293A at Paonia, Colorado. The FCC has never acknowledged any of the GGR counterproposal. However, it is apparent that GGR filed. See Exhibit A which is a received stamped copy of the GGR first page.

However, this is not the entire reason GGR submits the present filing document. GGR basically wants its proposed substitution of Channel 293C at Olathe considered even though it is in conflict with the proposed substitution of Channel 293C1 at Paonia.

No. of Copies rec'd 014
List A B C D E

The petitioner for Channel 293A at Panoia, Angel T. Babudro (Babudro), filed a counterproposal to his own pending notice of rule making saying that he no longer wanted a class A at Panoia, now he only wants a class C1. But, GGR feels that the FCC must decide between a class C1 on channel 293C1 at Paonia, or the better scenario of channel 293C at Olathe. Therefore, the members of GGR urge the FCC to bring these scenarios forth for public viewing and inspection. In addition, GGR feels the general public will support its proposal that Channel 293C be placed at Olathe instead of Channel 293C1.

Finally, GGR request that its proposal to use channel 270A as a substitute for channel 293A at Paonia be eliminated (dismissed) from its counterproposal. This part of the GGR counterproposal was submitted to eliminate conflict between its counterproposal and the Babudro proposal for channel 293A at Paonia. Babudro says he only wants a class C1 and has given no expression in a class A. GGR did not express interest in a class A at Paonia either. In fact, no expressions for a class A at Paonia exist from anyone. **Therefore, GGR Member and head partner, Ellinor Nelson, makes a pleading that the FCC dismiss its request that channel 270A be placed as a substitute for channel 293A at Paonia.**

GGR partner members familiar with FCC matters advise that since GGR is not withdrawing its proposed use of channel 270A at Paonia which involves an expression of interest of interest by it, the requirements of section 1.420J do not apply, however, GGR

still wants to assure (guarantee) the FCC, all branches, that it has received no payment for this request that channel 270A be dismissed at Paonia. It has been promised no compensation now or in the future for taking this action.

Basically the GGR position is for the FCC to drop its proposed use of channel 270A at Paonia and bring the rest of its counterproposal and let the public compare it (channel 293C at Olathe) to channel 293C1 at Paonia.

CERTIFICATION FOR FILING DOCUMENTS AT THE ALLOCATIONS

BRANCH WITHOUT AN ATTORNEY.

I, Ellinor Nelson of Good Government Radio, the petitioner for channel 293C at Olathe, Colorado, do hereby verify that the statements contained in the filing contained herein are true and correct to the best of my knowledge and belief.

COUNTERPROPOSAL AND ADDITIONAL COMMENTS

Good Government Radio (GGR) submits a request to the Federal Communications Commission to accept a counterproposal for a new FM channel at Olathe, Colorado. Good Government Radio has hired a person which is knowledgeable in FCC and technical matters, but the certifications and representations made in this request are by a principal/partner of the petitioner. GGR exercises its right to petition for a new FM radio station channel, and if GGR is the successful applicant, it will give average American citizens an opportunity to express their views.

The channel request at Olathe is channel 293C. According to the technical person retained by GGR, this station channel can be placed at Olathe if channel 293A at Paonia, Colorado is moved to channel 270A. When this move is made, GGR can have channel 293C placed at Olathe, Colorado. It has been determined that channel 270A can be the channel used at Paonia and channel 293C can be used at Olathe, therefore, GGR, the petitioner for channel 293C at Olathe, makes the following statements:

General

1. Olathe, Colorado is an incorporated community in Montrose County, with a 1990 Census population of 1,263.
2. Paonia presently has local service from KVNF, and the proposed channel 293 is a second local service. However, Paonia can have a second local service by using channel 270A (or higher classification) depending on the desire of the petitioner.
3. Olathe (Montrose County) needs an additional FM radio station to allow local citizens an opportunity to express themselves instead of playing music constantly.
4. Olathe meets the FCC requirements for local aural service, since it is incorporated and has community standing with the state of Colorado.
5. GGR is a for profit group that will operate the new FM station at Olathe for profit and will file an application for a construction permit if the FCC allots channel 293C at Olathe.

SERVICE CERTIFICATION

I, Ellinor Nelson, Head Partner, part owner and administrator of Good Government Radio, do hereby certify that I have on this 29th day of March, 1999, caused to be mailed by first class, postage prepaid a copy of the present FCC Allocations Branch filing to the following:

Angle T. Bubuduro
Petitioner for Channel 293C1
P.O. Box 132
Panoia, CO 81428
